IT4all IT Fundamental Pro

Course Content

Expiration date: December 31, 2021

The IT Fundamentals Pro course was designed for students who are interested in Information Technology but have limited technical knowledge of computing systems. We'll explore foundational concepts related to computer hardware and software, networking, databases, programming, Information Systems, and data security. The course includes over 100 hands-on labs to reinforce important concepts. As you perform real-world tasks associated with various IT fields, you'll gain a broad understanding of career options that will help you refine your interests and make vocational choices. The course also covers all objectives necessary to pass the TestOut IT Fundamentals Pro and CompTIA IT Fundamentals (FC0-U61) certification exams.
